

NARCISS

Pronouns: They/Them

Biography: Narciss is quite a phenomenon when it comes to musical unpredictability. Despite being a child of the 90s, they live and breathe musical knowledge. Soaking up everything that catches them, whether it's rhythmic elements, melody or even just moods within a song. The underlying key element of everything they touch is groove and swing, as Narciss has proved time and time again: They understand what makes people move physically and emotionally.

Claiming influences from pretty much a dozen genres from all angles of the spectrum makes them an absolute experience to witness behind the decks. Don't make the mistake of diving in with expectations about the musical direction they might take – Narciss will shatter them anyway. What you can expect however is energy of over boarding joy paired with body-moving grooves, putting smiles on anyone in the vicinity. Appearing first on the Leipzig-output Seelen Records shows the importance of labels that hand musical freedom over to Narciss – just let them do their thing and you can rest easy.

Crack Magazine: PollerWiesen 2024 in top five standout sets

- Featured as one of the 5 standout sets at electronic day festival in Dortmund Germany which had 30 performers.
- Narciss performed on the main stage with Gerd Janson, Narciss being described as a 'veteran of Europe's dance music underground'

New Gig Concept:

- Starting at ADE (Amsterdam Dance Festival), Intercell x Narciss presents 'Battle Royale' - an original concept with a secret lineup ready to go back-to-back with Narciss throughout the day, Narciss won't know who will be joining him until they walk out, thus needs to be prepared for some curveballs.
